1990

STATISTICAL INFORMATION

FOR THE

U.S. LIQUOR INDUSTRY

Office of Strategic & Policy Analysis
Distilled Spirits Council of the U.S., Inc.
December 4, 1991

The Annual Statistical Review ceased formal publication with the 1984/85 issue. Attached for your use are selected 1990 tables produced in-house for limited distribution. This office does not maintain a mailing list but does accept written requests for the data to be mailed when it is next available.

STATISTICAL TABLES
(through November 1991)

Apparent Consumption of Liquor in the United States, License and Control States, 1934-1990

U.S. Apparent Consumption of Liquor, by State, 1980-1990

Apparent Consumption of Liquor, by State, Total and Per Capita, 1989 and 1990

Apparent Consumption of Liquor in the United States by Month, 1989 and 1990

Apparent Consumption of Liquor, Beer and Wine, by State, Total and Per Capita, 1990

Apparent Consumption of Alcohol from Liquor, Beer and Wine, by State, Total and Per Capita, 1990

United States Commercial Exports of Liquor, by Class, 1975-1990

United States Commercial Exports of Liquor, by Class and Country of Destination, 1990

United States Dutiable Imports of Liquor for Consumption, by Class, 1934-1990

United States Dutiable Imports of Liquor for Consumption, by Class and Country of Origin, 1990

Sales of Liquor: Retail Sales in Control States, Supplier Shipments in License States, by Class & Type, 1990.

Apparent Consumption of Liquor by State, Total and Per Capita, 1989 and 1990

Resident Population April 1, 1990 (000)	Percentage of Total Population	Percentage of Total U.S. Consumption 1990	1989	STATE	Apparent Consumption Rank 1990	1989	000 Gallons 1990	1989	Percent Change	Apparent Consumption Per Capita \a Gallons per Person 1990	1989	Rank 1990	1989

248,239	100	100	100	U.S. TOTAL			374,409	371,463	0.8	1.51	1.50		

NOTE: Because of rounding, detail may not add to total.

a\ Per capita consumption and rank changes from 1989 to 1990 are also influenced by state population estimates, which were unrevised for 1989 as of publication date.

b\ License States: Where available, license state consumption is based on taxed gallonage reported by state authorities. In other states, estimated from state tax collections by dividing revenues collected by the state tax rate per gallon.
* In Georgia, Missouri, South Carolina, South Dakota, and Wisconsin, consumption represents shipments by distillers to wholesalers.

c\ Actual change in apparent consumption is distorted by state law changing tax liability from purchase by wholesaler to sale to retailer.

d\ Control States: All control state data, with three exceptions, are package sales in retail stores and case sales to on-premise licensees.
** In Mississippi, Wyoming and (beginning in March 1987) Iowa, the data represents wholesale sales from state-controlled warehouses to private retail establishments.

NOTE: Because of rounding, detail may not add to total.

a\ License States: Where available, license state consumption is based on taxed gallons reported by state authorities. In other states, consumption is estimated from state tax collections. Beginning with 1985, a new source is used for Arizona. Also beginning in 1985, Florida special (domestic) liquor products are added into the Florida data. Finally, beginning with 1985, the monthly data for Indiana is no longer shifted while the monthly data for Tennessee & Texas are shifted to more closely reflect consumer purchases.

* For Georgia, Hawaii (1985–1986), Missouri, South Carolina, South Dakota and (after 1984) Wisconsin, consumption represents shipments by distillers to wholesalers. Beginning with 1985, the monthly data for these states are shifted to more closely reflect consumer purchases.

b\ Beginning in 1987 source of Hawaii consumption is state tax collections and may not be comparable with previous years.

c\ Method of calculating Kentucky consumption was revised for years 1981–89.

d\ Control States: All control state data, with three exceptions, are package sales in retail stores and case sales to on-premise licensees.

** In Mississippi, Wyoming and (since March 1987) Iowa, consumption represents wholesale sales from state-controlled warehouses to private retail establishments.

SOURCES: Distilled Spirits Council of the U.S., Inc.; National Alcohol Beverage Control Association.

NOTE: Because of rounding, detail may not add to total. Does not include shipments to Puerto Rico and the U.S. Virgin Islands. A proof gallon equals a standard U.S. gallon of 231 cubic inches at 60 degrees Farenheit containing 50% ethyl alcohol by volume (100 proof).

* Whiskey exports for 1989 are currently being revised by the Census Bureau. The Census Bureau found that Bourbon was sometimes reported in the "Whiskey, other" category and export volumes were being reported in the wrong units following introduction of the Harmonized System of classification. The category errors distorted figures while the unit errors caused figures to be inflated. For 1990, the category errors continued through April and the unit error continued beyond April.

a\ Before 1978, gin included in "Other".

b\ Before 1983, vodka and cordials included in "Other".

NOTE: Because of rounding, detail may not add to total. Cordials included in "Other" before 1940; Vodka included in "Other" before 1980; Tequila included in "Other" before 1974; Bitters included in "Other" before 1945.

a\ Data for the years 1934 through 1978 are in tax gallons; data after 1978 are in proof gallons.

b\ Indicates shipments in wood or metal containers each holding more than four liters.

c\ Substantial quantities of imported bulk rum were shifted from Customs' bonded warehouses to BATF bonded warehouses in 1984 (about 5 million gallons from Jamaica). As a result, these supplies have been described as imports for consumption although bottling & consumption may not take place for a year or more. The shift occurred because, with passage of the Caribbean Recovery Act in 1984, rum from Carribbean nations now enters duty free. This makes storage in Customs' bonded warehouses unnecessary to defer payment of import duties.

Tax Gallon: unit of distilled spirits on which the federal excise tax (FET) is levied. The FET on all spirits is $12.50 per proof gallon so that a tax gallon is equivalent to a proof gallon. Before Jan. 1, 1980, imports of bottled distilled spirits were taxed at a rate per gallon, regardless of the proof.

Proof Gallon: standard U.S. gallon of 231 cubic inches at 60 degrees Farenheit containing 50 percent ethyl alcohol by volume (100 proof).
